PRESS RELEASE

CONVEYANT SYSTEMS, INC. AND PROFESSIONAL COMPUTING RESOURCES, INC. ANNOUNCE JOINT DISTRIBUTION AGREEMENT

Santa Ana, California, JANUARY 18, 2010 -- Conveyant Systems, Inc., the telecommunications industry leading supplier of PC-based Attendant Console applications, and Professional Computing Resources, Inc. (PCR), a provider of leading-edge telecommunications and technology management software and systems, announced they have signed an Agreement for the resale and integration of their products.

Under the terms of the agreement, Conveyant Systems will market PCR's Communications Management Information Tool (COMIT), their comprehensive technology management software solution which allows companies to minimize their voice, data and wireless telecommunications expenses while optimizing the management of their technology resources.

In addition, PCR will market Conveyant Systems' TeleDirectory™ Consoles, along with Conveyant's suite of products which operate in conjunction with the Consoles, including event and emergency notification, vertical market application packages and Enhanced 911.

"Conveyant Systems is excited about the opportunities this partnership brings to our companies, as well as our customers and prospects. The integration of our well proven, well established products, along with our combined industry experience, position us to understand the complex communications needs of our customers, and to provide them with robust, reliable communications solutions," stated Tim Kenyon, President of Conveyant Systems. Kenyon added, "We are committed to the development of new and innovative telecommunications and technology solutions, and PCR's COMIT technology management applications are a perfect fit."

According to Dan Ross, Vice President of Sales at PCR, "This is an exciting and defining strategic partnership for both our customers and alliances to drive innovation and value across the enterprise marketplace. Our customers have been asking us to step up to a broader role to reduce complexity, risk and cost by delivering a highly optimized network management solution with increased functionality. Now, together PCR and Conveyant are prepared to deliver."

ABOUT CONVEYANT SYSTEMS, INC.

Founded in 1987, Conveyant Systems develops, manufacturers and markets call handling and processing systems for the Centrex and PBX marketplace. With over 6,000 PC-based Consoles installed around the world, Conveyant remains the leader in specialized console applications and directory products. Conveyant's products have been developed with reliability, network compatibility, ease of use and advanced features which provide benefits, including improved customer service, lower labors costs and increased employee productivity. Conveyant's modular approach to application design provides for a variety of applications in healthcare, hospitality, public service, government, financial and higher

education markets. Visit Conveyant Systems' website at <http://www.conveyant.com> or contact Conveyant Systems at (800) 634-3688 for more information about our company, products and services.

ABOUT PROFESSIONAL COMPUTING RESOURCES, INC.

Professional Computing Resources, Inc. (PCR) is owned by Koniag, Inc., an Alaskan Native Corporation, and is certified as an SBA 8(a) SDB-ANC Company. The COMIT TMS is available on GSA Schedule (GS-35F-0630V) as a JITC certified solution that provides a full suite of integrated features to support an Enterprise level implementation. Supports Central Network Operations Center - COMIT's Mirror Image Control System (MICS) provides a data mirroring architecture used to support CNOC access to multiple locations, and at the same time provide autonomy at the base/camp/post/site level. COMIT, utilizing MICS and an Oracle database, provides an unprecedented ability to give administrators total access to all communications assets used to support the entire Enterprise - which reduces the operational footprint of software, server hardware, and staffing. Visit PCR's website at <http://www.pcr.com> or contact PCR at (616) 544-0000 for more information about our company, products and services.
