PRESS RELEASE

CONVEYANT SYSTEMS, INC. AND TWISTED PAIR SOLUTIONS ANNOUNCE SOLUTION DEVELOPER PARTNER RELATIONSHIP

Santa Ana, California, OCTOBER 19, 2009 -- Conveyant Systems, Inc., the telecommunications industry leading supplier of PC-based Attendant Console applications, and Twisted Pair Solutions, a pioneer in unified communications and the developer of WAVE® software technology, announced they have signed an Agreement for the resale and integration of their products.

Tim Kenyon, President of Conveyant Systems, stated, "Conveyant Systems is excited about the opportunities this partnership provides both companies as well as our end users. The integration of our well proven, well established products, will provide our customers with the capabilities and reliability needed in today's demanding communications market." Kenyon also added, "Twisted Pair's WAVE software is a natural fit with our TeleDirectory™ PC-based Consoles and suite of communications

products. The integration of our products, and our combined industry experience position us to understand the complex communications needs of our customers to provide them with quality communications solutions."

"Twisted Pair is excited about the new partnership with Conveyant Systems as we see enormous opportunity for joint solutions that solve crucial telephony and radio convergence issues in markets such as healthcare, hospitality and E-911", said Tom Guthrie, President and CEO of Twisted Pair Solutions. "Conveyant's leading position in the PC-based Console market and our global leadership in software for communication interoperability and collaboration combine to create a powerful joint capability."

ABOUT CONVEYANT SYSTEMS, INC.

Founded in 1987, Conveyant Systems develops, manufactures and markets call handling and processing systems for the Centrex and PBX marketplace. With over 6000 PC-based Consoles installed around the world, Conveyant remains the leader in specialized console applications and directory products. Conveyant's modular approach to application design provides for a variety of applications in healthcare, hospitality, public service, government, financial and higher education markets. Visit Conveyant Systems' website at <http://www.conveyant.com> or contact Conveyant Systems at (800) 634-3688 for more information about our company, products and services.

ABOUT TWISTED PAIR SOLUTIONS

Twisted Pair Solution's award-winning WAVE software technology enables partners and customers to build and operate secure, highly scalable communications solutions in the world's most demanding environments. Recognizing that the best approach to solving the complexities of communications interoperability is to use standards-based software to unify diverse communications technologies, WAVE is trusted when communications is absolutely indispensable. Twisted Pair Solutions
