TeleDirectory™ SIP Console

Avaya Aura® Session Manager and Avaya Aura® Communication Manager

In today's demanding telecommunications environment, the attendant answering position requires exceptional reliability; the ability to provide fast and efficient service; and the ability to access an up-to-date directory to ensure delivery of accurate information.

Conveyant Systems' TeleDirectory SIP Console provides attendants with a call processing platform to assist them in meeting these demands, and enhances the call processing functionality available in the **Avaya Aura Session Manager and Avaya Aura Communication Manager**.

Our TeleDirectory Console's user-customizable directories enable attendants to easily access directory information for personnel, departments, students, guests, patients, products, services, etc. And, our "click to dial" or single keystroke transfer improves accuracy and efficiency. Features such as Call Notes, Call Recording, Messaging/Paging Services and On-call Schedules provide the functionality needed to ensure the telephone attendants provide your customers with exceptional service—quickly and efficiently. TeleDirectory Consoles are available in three models with a range of features and price levels to suit small, medium and large enterprises.

TELEDIRECTORY CONSOLES ADVANCED FUNCTIONALITY WITH EXCEPTIONAL RELIABILITY

- May be integrated with Conveyant's **Sentry™ E911 Solutions** as a Private Emergency Answering Position.
- Fifteen, user-customizable directories with integrated dialing
- Indexed or sequential directory format with detail information pages
- Real-time directory updates from host systems with Host Interface product
- "NEXT" key priority answering
- Filter, phonetic, character-by-character and sequential search
- Comprehensive system, console and user call statistics reports
- Compatible with Avaya Aura® Communication Manager 6.3 SP4 and Avaya Aura® Session Manager 6.3 SP7

The screenshot shows the TeleDirectory Network System console interface. The main window displays a directory table with columns for Name, Department, Phone Num, Title, Location, and Notes. Below the table is a Telephone Window with a search field containing '1026' and a list of buttons: Hold, Next, Call, Release, and a row of buttons: Connect, 1024, Xfer, B Xfer, Cancel.
